LCRC16I*	03316		14 - 16	368 - 462	66	1664	60	27.3

*EXCLUSIVE

NOTE: S= includes cutter wheels for steel; I= for cast and ductile iron. Wheels for same size cutters are interchangeable. Recommend only Reed cutter wheels be used with these cutters. Reed wheels are made from high shock-resistant tool steel on computerized (CNC) machines and then precisely heat-treated. This allows for a thinner profile yet stronger blade, so they:

- Cut easier and faster, especially stainless steel and ductile pipe
- Last much longer
- Provide the best value

LCRC ACCESSORY

To improve use in awkward locations, Reed now offers an angled handle option that allows the user to turn the LCRC cutter from the side of a ditch, using one's body weight, rather than having to turn the cutter from on top.

Catalog No.	Item Code	Converts
★ BAHANDLE	93177	Angled Handle option for use with LCRC (Low Clearance Rotary Cutters)
★ NEW
